

SLT Program Overview

Phase 1: Orientation and foundation building

Our orientation program takes the first three weeks. This is the time where all both student and program expectations get to be clarified and bonding between the students is facilitated before the foundation sessions commences. The next four weeks form the foundation sessions during which all the students are brought to the same departure point. This is a crucial part of the program.

Phase 2: Ministry exposure and focus

During Ministry exposure weeks, students get to be introduced to the ministries at LXP and at the end of the weeks they get to choose in which ministry they will serve for the rest of the duration for the program. The ministry programs forms the afternoon programs of the LXP.

Phase 3: Ministry journal and internships

This makes the biggest time slot at LXP. Students get to intern and journal their experiences weekly for the rest of the program duration. This covers about 26 weeks of the time at LXP. Included in this time are special programs such as 6 weeks of student projects, 3 weeks of Beat the Drum projects and 3 weeks of hosting outreach teams

Phase 4: Ministry debrief and closure facilitation

This is the last two weeks of the program. The students are prepared for re-entry into their countries and home situation.
